EXPERIENCE

FASOO

Seoul, South Korea

Software Engineer Intern

Jun 2022 - Aug 2022

- Worked as part of a four-member team under the Wrapsody Development team for the internship project called Wrapsody eCo Workspace
- Designed and implemented a new collaborative workspace, where users can freely share their opinions, within Wrapsody eCo by integrating a real-time open-source collaborative text editor called Etherpad
- Presented Wrapsody eCo Workspace in front of the CEO, team leaders, and senior developers on the last day of the internship

MEDIAZEN

Seoul, South Korea

Software Engineer Intern

Jun 2021 - Sep 2021

- Suggested new application ideas for STT, TTS, NLU, and Computer Vision in front of the team leader and senior developers on the first week of the internship
- Created 1000 test scenarios for the advancement of ART (Automatic Recognition Test), a software testing automation tool
- Responsible for software testing of the Volkswagen Voice Control System and reporting test results to the project manager when a new version is released

REPUBLIC OF KOREA NAVY

Gyeryong, South Korea

Petty Officer Second Class, Administrative Clerk

Jan 2018 - Oct 2019

- In charge of reporting the personnel status of the FF-956 to the fleet, flotilla, and squadron
- Assisted in administrative work in the secretary's office of the vice chief of naval operations

PROJECTS

WALKTOBER (CS Capstone Project)

Oct 2022 - Mar 2023

- Develop a cross-platform fitness challenge app called Walktober that is integrated with built-in iOS and Android fitness tracking systems by using TypeScript, Node.js, React, Ionic Framework, and Firebase
- Users can create an account, log in, log out, create or join a team, track their steps, interact with the participants, view the leaderboard for the event and for their team, and view event-wide announcements

WRAPSODY ECO WORKSPACE (Fasoo Internship Project)

Jun 2022 - Aug 2022

- Designed and implemented a new collaborative workspace, where users can freely share their opinions, within Wrapsody eCo by integrating a real-time open-source collaborative text editor called Etherpad
- Wrapsody eCo users can now freely share their opinions with their team members without having to move to the different platform

FULL STACK REALTIME CHAT MESSAGING APP (CS300 Project)

Jan 2022 - Mar 2022

- Created a custom chat application using JavaScript, Node.js, React, and Stream by following JavaScript Mastery Tutorial
- This chat application includes direct and group chats, emojis & reactions, built-in gif support, the ability to edit & delete messages, specialized commands, and much more
